

COVID-19 Outbreak

Briefing for Primary, Community and Secondary Care on Council COVID-19 Community Response Hub/ Unit in Derby & Derbyshire

What are the Community Response Hubs/ Units?

As part of the Government's response to the outbreak of COVID-19, local authorities have been commissioned to establish Hubs to provide a community response to the most vulnerable. The Community Response Hubs work in partnership with the voluntary and community sector, NHS colleagues and food industry partners and are overseen by the Local Resilience Forum (LRF). The LRF has responsibility for the strategic leadership, oversight and co-ordination of the emergency response to the outbreak of COVID-19.

In partnership with the local voluntary sector, Derby and Derbyshire County Councils have two fully operational Community Response Hubs/ Units now supporting vulnerable Derby and Derbyshire residents through coordinating local staff and volunteers:

- They are the primary point of contact for local vulnerable people who need support such as food, medicine and befriending.
- The Hubs provide support to vulnerable residents who **do not have** access to a trusted neighbour, friend or family member to help them.
- The Hubs are also a point of contact for those that want to volunteer and help in their community

Who is eligible?

Any resident of Derby and Derbyshire who needs support and **does not have** a trusted neighbour, friend or family member to help them. This includes those who are:

- Extremely vulnerable (those on the Shielded List)
- Vulnerable (those aged over 70, underlying health conditions, pregnant women)
- Self-isolating due to the individual or someone in their household being ill with suspected COVID-19.

Note: those on the Shielded list are also eligible for nationally provided support including food parcels. Please check your patient has registered.

What is provided?

The Hubs provide vulnerable residents with a range of community-based support to help them safely through this difficult period including, but not limited to:

- Shopping and provision of food
- Collecting and delivering medicines
- Providing contact and befriending calls to reduce social isolation
- Support with financial needs (through welfare benefits advice and financial hardship funds).

Getting help

- Anyone on the Shielded list and who has registered with the Government for help is contacted directly by the Hubs to discuss what help they may need.
- An individual can register for help with the Hub themselves or a relative, friend, professional can register a vulnerable person on their behalf.

Email: ASCH.CommunityResponseUnit@derbyshire.gov.uk

[Online registration form](#)

Open: Monday to Friday 9am to 5pm
Saturday 9am to 1pm

What do you need to do?

- If you have patients on the Shielded List, please check they have registered for the national service if they need support. If they need support over and above this, please register them with the Derby or Derbyshire Community Response Hub/ Unit.
- If you have any other patient who is vulnerable, has no other support and needs help please register them for support with the Community Support Hub/ Unit.
- Please do not send details to individual voluntary organisations. The Hubs are working in partnership with the voluntary sector and coordinating their response. We can also refer to and use GoodSam volunteers if needed.
- If you have a list of vulnerable people who you think are struggling to meet their basic needs and may not have any support, the Hubs can contact them directly to discuss what support they may need. Please provide:
 - Name
 - Address including postcode
 - Contact Tel no
 - DOB
 - NHS Number.
