means you can self-refer without a doctor’s appointment first

Other professionals you can self-refer to:

► Q15. Midwife
  • Normal antenatal care
  • Postnatal care

► Q16. Community matron
  • Health education
  • Improve quality care
  • Physical assessments
  • Complex patients

► Q17. Care co-ordinator
  • Aids in the home
  • Discharge review
  • Referring for help

► Q18. School nurse
  • Bedwetting
  • Bullying
  • Drug advice
  • Health education
  • Safeguarding
  • Signposting

► Q19. Occupational therapist
  • Assess function
  • Carpal tunnel syndrome
  • Improving daily activity
  • Rehabilitation

► Q20. Citizens Advice Bureau
  • Benefits advice
  • Discrimination
  • Financial worries
  • Law and rights
  • Work issues

► Q21. Derbyshire Carers Association
  Direct contact 01773 743355

► means you can self-refer without a doctor’s appointment first

Q22. Do you need a telephone appointment?
These can be dealt with by telephone:
• Simple urine infections
• Conjunctivitis
• Discussing results
• Ongoing sick notes
• Medication advice
• Viral illnesses
• Minor illness
• Certain reviews

Q23. Do you need a home visit?
Ring before 10.30am and we will assess if:
• Terminally ill
• Bedbound
• Would come to harm if moved

Q24. Do you need to see a practice nurse?
Our ► practice nurses deal with a range of conditions:
• Asthma
• Blood pressure
• Blocked ears and wax
• Cardiovascular reviews
• Chronic bronchitis care
• Dressings
• Family planning
• Health checks
• Ring pessaries
• Smears and swabs
• Travel advice
• Vaccinations
• Weight monitoring

Q25. Perhaps you do need a see a GP?
Our website has resources to help you make the most of your appointment:
• Top tips
• Antibiotics and viruses
• Sick notes
• One problem at a time

Q26. Why is it so difficult to see a GP?
There is a real crisis in General Practice. Check our website:
• Our opinion on the NHS
• Our letters to PM and MP
• Our viral State of General Practice video

Things to consider before you give us a call

START HERE! What is this leaflet is about?
The NHS aims to empower all patients to self-care and to seek
the most appropriate source of help for their condition. A GP
appointment is not always the best option and may even lead
to delays in treatment or a poorer standard or care. Studies
show that up to 40% of consultations with the doctor are
unnecessary. This may be because the doctor was not the best
person to see, or the patient may have been able to self-care or
refer themselves to the right person without seeing the doctor.
Question numbers below match those on our online help page.

Q1. Are we the right people to see?
Given the current crisis in General Practice, appointments are
in very short supply. Our other leaflets give a full explanation,
but in summary, there are issues with fewer GPs, lack of
resources and rising workload. Our limited appointments
should only be used for those who truly need to us. Please help
us to help you by first asking yourself, you do actually need to
see us or can you get the right help elsewhere?

PLEASE NOTE: In this leaflet ► means you can self-refer without a
doctor’s appointment.

Q2. Is your life potentially in danger?
Ring ► 999 if you have these conditions:
● Anaphylactic shock
● Severe breathlessness
● Suspected heart attack
● Drowning incident
● Hypo (low sugar)
● Deep lacerations
● Suspected stroke
● Looking very poorly or condition significantly deteriorating

Q3. Have you got a medical emergency?
Go straight to a major ► A+E if you have:
● Severe abdominal pain
● Breathless, can’t speak
● Floppy unresponsive baby
● Lethargic drowsy child
● Drug overdose
● Sudden blindness
● Suspected fractures
● Severe head injury
● Persistent nose bleed
● Swallowed foreign body

Q4. Do you need the Minor Injuries Unit (MIU)?
These conditions are dealt with by ► MIU:
● Bites and stings
● Cuts and grazes
● Foreign bodies in skin
● Sprains and strains
● Minor wound infections
● Burns and scalds
● Eye problems
● Minor head injuries
● Road traffic accidents

Q5. Do you need to see a pharmacist?
Your ► pharmacist can give you advice on:
● Athlete’s foot
● Bloating and wind
● Conjunctivitis
● Coughs and colds
● Dermatitis and eczema
● Ear wax
● Hayfever
● Headache
● Irritable bowel
● Nasal congestion
● Runny nose
● Sinus problems
● Sore throat
● Teething troubles
● Thrush
● Verrucas
● Warts
● Minor allergies
● Cold sores
● Constipation
● Cystitis
● Diarrhoea
● Emergency contraception
● Headaches
● Indigestion
● Mouth ulcers
● Piles
● Scabies
● Sleep problems
● Styes
● Threadworms
● Urine infections
● Viral infections

Q6. Can you look after yourself?
These conditions respond well to self-care:
● Coughs and colds
● Earache
● Hangover
● Sunburn
● Sore throat
● Diarrhoea
● Flu
● Minor grazes
● Viral illness

Q7. Can you refer yourself? or
Q8. Who else can you contact directly?
Anything marked ► in this leaflet means you can refer
yourself without needing to see a GP first

Q9. Do you need a physio?
You can self-refer to ► physio for:
● Back pain
● Exercise advice
● Joint problems
● Poor mobility
● Rehabilitation
● Soft tissue problems
● Education
● Gait problems
● Neck pain
● Posture advice
● Shoulder pain

Q10. Do you need a counsellor?
You can self-refer for ► counselling for:
● Anger issues
● Anxiety
● Depression
● Mood problems
● OCD (obsessive-compulsive disorders)
● Phobias
● Stress
● Trauma

Are we just putting you off from seeing us?
No, we are not here to put you off from seeing us if it is appropriate. But as mentioned earlier, up to 4 out of 10 people who come to see us, don’t actually need to. In fact, it is now official NHS guidance that we actively encourage self-care and self-help and to direct you to see the right person.

Why should you bother with self-care?
A large part of our work involves seeing patients with minor illness. In reality though, most of these conditions do get better with some self-care. By helping yourself, you might get quicker help and avoid the need to sit in a spluttering waiting room.

Why should you refer yourself?
There is a vast array of other workers in the NHS and many of these accept direct contact from patients without the need to see a GP first. By self-referring, you save yourself time, and save waiting for a GP appointment. In this leaflet ► means you can self-refer.

If you are concerned that by self-referring, you might be doing the wrong thing or wasting someone’s time, please be assured that should your symptoms suggest that you actually do need to see a doctor, you will always be advised accordingly.

Why do you need to see the right person?
We understand the very natural reaction for most problems is to pick up the phone and book an appointment with the GP, however, every inappropriate consultation with us may be causing a person with genuine need to suffer. We do this to maintain safe care, not only for you but for other patients too.

For example, if you think you are having a heart attack, booking an appointment with the doctor instead of ringing for an ambulance would introduce unnecessary delays into your care, and increase the risk of harm to you. On the other hand, if you booked with us for a simple cold and sniffles, that would easily get better with self-care, you will have used up an appointment that may have been more appropriately taken by someone with say, pneumonia, who really does need our help.

Too much information? Where do you start?
Reading this leaflet, you may be completely confused on where to start looking for information on how you actually self-care of self-refer. In fact, this leaflet has all the information that you require including all contact numbers on the reverse, however, you will find more comprehensive details on our website. If you are still lost, please follow these 3 simple directions.

1. Please STOP and THINK
Before you just pick up the phone, we kindly ask that you pause, and just ‘stop and think’. Do you need to see us, can you self-care, or will another professional or service be able to help you better?

The best way to check that you get the right help for your condition is to look on our website. The address of our website is easy to remember (IVY Grove Surgery). Just type this into your browser:

ivy.gs

2. Check your SYMPTOMS
On the top of every page of our website and in the navigation on the left, you will see a link to our symptom checker. You can also get to our symptom checker by typing the address directly:

ivy.gs/symptoms

Using our symptom checker is really easy. Just enter your postcode to unlock the page, read the important information, then scroll down to your symptom, or better still, search for it. Next to the symptom is a link, click on it and you will get contact details, or information on what you can do, including links to patient information leaflets. Why not give it a try now?

3. Check who can HELP you
Again, on the top of every page of our website and in the navigation on the left, you will see a link to our help page. You can also get to our help page by typing the address directly:

ivy.gs/help

Our help page is easy to navigate. Simply work through each question section until you find out who you need to see.

Get more information online
To help you reach our website pages easily, they all have simple ivy.gs web addresses, for example:

ivy.gs/minorillness   ivy.gs/selfcare
ivy.gs/numbers        ivy.gs/downloads
ivy.gs/online         ivy.gs/newsletter

Even if you don’t know the link, you might be able to guess it. Our website is designed to help you get to the right place.
