

DHU have recently gone from booking phlebotomy calls via our admin team to patient booking themselves in via swiftqueue. Below is a step by step for guidance.

Please advise the patient to go onto google and type Derby hospital blood tests or this link takes you straight to the website <https://www.uhdb.nhs.uk/service-phlebotomy-blood-tests/>

If the patient does not have access to the internet please advise them that they can call on the 0300 1000 438 number between the hours of 10am and 4pm and our admin department will be able to assist in booking in the blood test.

Phlebotomy (blood tests)

We hold blood test clinics at Royal Derby Hospital, London Road Community Hospital, Queen's Hospital Burton, Samuel Johnson Community Hospital and Sir Robert Peel Community Hospital.

We also provide local clinics around the community to help patients who may find it difficult to travel to our hospitals.

UHDB patients can now book themselves in for a blood test online at each of our five hospitals.

Via the new Swiftqueue booking system, UHDB patients will be able to book an appointment at our blood clinics at Royal Derby Hospital, Queen's Hospital Burton, London Road Community Hospital, and now also at Samuel Johnson Community Hospital and Sir Robert Peel Community Hospital.

Please note that the service provided at both Samuel Johnson and Sir Robert Peel Community Hospitals is **only** for patients who have had their bloods ordered by the Trust - patients referred by their GP will **not** be seen.

You can book via the link below

Book your blood test appointment

To help reduce patient waiting times and to support social distancing we strongly advise all patients to use our new online appointment system before attending for a blood test. The new service helps patients, their carers, and family members to plan their trip to a blood clinic, helping to reduce clinic waiting times and enabling patients to be seen much more quickly.

Book here
