

Ivy Grove Surgery BP recording chart

Name:

Date of Birth:

Instructions to patient

1. Use your own BP monitor or the one supplied by the surgery - see <http://ivy.gs/covid-bp> for recommended monitors
2. Wrap the cuff around your arm just above the level of the elbow
3. You should be seated comfortably with your arm supported (e.g., on a table) and not talking/eating etc
4. Press the button to start the machine and make a note of the reading when it is done
5. You should measure your blood pressure in the morning and in the evening
6. On each occasion you should take two readings, about one minute apart
7. So this means 2 readings in the morning, 2 in the evening, a total of 4 readings each day
8. Record all the readings in the chart for a whole week (turn over the page for days 4 to 7)
9. Once this chart is complete, please drop it in or send it to us and await your results.

		Date	Time	Systolic reading	Diastolic reading	Pulse (optional)
	Example	01/03/2017	7.40am	148	91	72
Day 1	Morning					
	Morning					
	Evening					
	Evening					
Day 2	Morning					
	Morning					
	Evening					
	Evening					
Day 3	Morning					
	Morning					
	Evening					
	Evening					

Day 4	Morning					
	Morning					
	Evening					
	Evening					
Day 5	Morning					
	Morning					
	Evening					
	Evening					
Day 6	Morning					
	Morning					
	Evening					
	Evening					
Day 7	Morning					
	Morning					
	Evening					
	Evening
